

**MS. HOLLEMBEAK'S
HOMEWORK
EXPECTATIONS**

Weekly Homework Assignments

• **WORDS THEIR WAY (WTW)**

(Daily practice assignments are in communication notebooks. Work should be recorded and dated in the notebook in the communication notebook.) Words are sent home on Monday. Assignments are due on Friday.

• **PROBLEM SOLVING (DAILY PROBLEMS)**

These 4 problems are sent home on Monday and are due on Friday.

• **READING LOG**

(Needs to be signed by a parent and turned in 3 times/week.)

Occasional things that may come home:

Daily Math Practice and Word of the day:

These assignments are meant for maintenance work on basic math concepts and word study skills. The class gets as their Daily Practice in the morning to work on BEFORE our morning meeting. This should be completed before the meeting. If it is not completed before our meeting starts it is sent home as homework which is due by Friday. (This is NOT meant to a homework assignment.)

Investigation Math Book Pages:

These pages may come home as homework in the middle of a unit or as review for an upcoming assessment. These assignments I would like the class to turn in the next day so I can plan for the needs of the group.

Please note this applies to only those children who are in my math group only.

Family Math/Science:

Family Math and Science activities are additional fun ways families can support the standards being taught in classroom. These games/activities DO NOT need to be turned in. My hope is that they will inspire the children into further math and science investigations, and the children will display their findings at the Science Fair.
