

# Amassing a School-Owned Bicycle Fleet: A Workshop

MPS Safe Routes to School is pleased to present Mark Trumper. A few years ago ELL teacher Mark Trumper had a vision of a class set of bicycles that children at Pillsbury School could use during the school day for transportation to environmental learning projects at the Mississippi River. Mark gained the support of school administration, staff, students and parents. Through a number of mini-grants and awards and a lot of tenacity, Mark has made this vision a reality.

Come learn how to make bicycle –fleet dreams a reality at your school.
