glue sticks.

**Notes to parents:** Lake Harriet is using a streamlined system of organization for students and school materials using one binder with one section for each class. Students are required to have one three-ring binder with a pencil pouch, a planner, and pocket dividers.

During the first week of school, binders will be set up to create sections for each class. Teachers will communicate with students as to what should be in their section of the binder.

Throughout the year, teachers will work with students to help them keep the binder orderly and organized.
